Education

- B.Tech in Computer Science and Engineering (Software Engineering)** (2023 - present)
SRM Institute of Science and Technology, Kattankulathur
Current CGPA: 9.48
- Senior Secondary Education (CBSE - Class 12)** (2022 - 2023)
De Paul School, Vindhyanagar
Percentage: 84%
- Secondary Education (CBSE - Class 10)** (2020 - 2021)
De Paul School, Vindhyanagar
Percentage: 93.6%

Technical Skills

- Programming Languages:** C, C++, Java, Python, JavaScript, TypeScript
- Libraries & Frameworks:** React, Node.js, Express.js, Tailwind, Firebase
- Backend:** Firebase, MongoDB, MySQL
- Tools and Software:** Git, GitHub, VS Code, Firebase, Vercel, Jira, Jupyter Notebook

Projects

- Insure_Ensure** | React, MongoDB, Firebase, Gemini API Feb 2026 - Present
 - Developed an insurance platform featuring, personalised insurance recommendations, AI powered ocr chatbot for insurance queries, and seamless document verification for reimbursements.
 - Implemented a custom RAG-based AI assistant capable of answering complex policy queries using Vector Search and Gemini Flash models for real-time, context-aware policy assistance.
 - Features include secure Firebase Authentication and a responsive, modern UI designed for seamless user experience.
- Enterprise MoU Management System** | React, MongoDB, Firebase Jan 2026 - Present
 - Developed a centralized MoU Management System using React to digitize the end-to-end lifecycle of 100+ institutional agreements, ensuring 100% document traceability and data integrity.
 - Automated administrative workflows by implementing automated renewal alerts and approval systems, reducing manual processing and follow-up overhead by 60–70%.
 - Engineered real-time monitoring tools for senior faculty to verify document authenticity and track cross-departmental partnerships, eliminating redundant outreach and preventing fraudulent entries.
- HostelInsight** | Typescript, React, Firebase, Firestore Aug 2025 - Oct 2025
 - Developed a hostel management website with student features such as room booking, service requests, and profile management.
 - Implemented an admin/warden panel to view student details and manage approvals for bookings, room changes, and requests.
 - Designed the system to streamline hostel operations and improve coordination between students and administration.

Work Experience

- Reliance Power Limited** | Internship Trainee June 2024 - Jul 2024
 - Gained cross-functional exposure to heavy machinery operations (Draglines) and coal extraction processes to understand the workflow of a large-scale power industry.
 - Observed and analyzed the deployment of Unity-based simulators used for operator training; gained insight into how real-time 3D environments improve safety and reduce operational costs.
 - Studied the integration of advanced safety instrumentation and monitoring systems used to optimize efficiency in hazardous mining environments.

Certifications

- AWS Cloud Practitioner Ongoing
- AWS GEN AI Practitioner Ongoing
- Database Management Systems — Scaler Feb 2025
- Networking Basics - CISCO Mar 2025
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate Aug 2025
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional Sep 2025
